

DR. PENNY LAMPROS

LAMPROS ORTHODONTICS
PLATINUM, BEST ORTHODONTIST

Q: Tell us about your business.

A: My Orthodontic office provides our patients not only with a beautiful smile, but we also correct multiple dental problems that improve their quality of life. We give our patients the smile they deserve. My office team is well-trained and full of energy, so not only do we work hard, but we also make the experience of orthodontic treatment fun for our patients and their families.

Q: How did your career path lead you to your current position?

A: My father, Dr. Leo N. Lampros, started the practice in 1964. I joined the practice in 1995 and we worked together for several years until his retirement. We had the opportunity to learn from each other and share the profession that has meant so much to both of us.

Q: What specific products or services do you offer?

A: As an Orthodontist, I provide multiple services to straighten my patients' teeth. Since I have patients from age 5-85, I tailor my treatment plan to the specific patient. I provide full and limited treatment options as well as interceptive treatment. I offer traditional orthodontic appliances, clear orthodontic appliances, clear aligners (Invisalign) and Lingual (on the back of the teeth) appliances. I also utilize Digital X-rays and a Scanner to record a patient's dentition.

Q: What's your favorite part of your job?

A: My favorite part of my job is meeting so many great people and providing them with a beautiful smile. It is very rewarding to see my patients not only complete their orthodontic treatment with a great smile, but also with improved self-confidence. I enjoy seeing current and former patients outside of the office and having them share their lives and endeavors with me.

Q: What does it mean to be recognized as a "Best of 2018" award winner?

A: Being recognized with the Platinum "Best of 2018" is humbling and means a lot to my dedicated team and me. Knowing our patients, friends and colleagues considered us worthy of this award is very gratifying. It gives us a renewed appreciation that the work we are doing is important to those we treat. This award encourages us to continue to put every effort into successfully treating our patients.
